The Golden Quarter of the

WHOLE MEDICAL FIELD

In these three States are about a quarter of the physicians in the United States. 27,000 in New York State, 6,000 in New Jersey and 2,500 in Connecticut.

The number of specialists in practice is approximately 9,892 in New York State, 1,700 in New Jersey and 850 in Connecticut.

In such an important segment of the entire medical market, up-to-date data is vital. The new 1947 Edition of the Medical Directory encompasses the necessary information in one well-indexed volume.
